PRICE GUIDE

W E L C O M E

Thank you so much for looking into our pricing. I know you are probably researching and most likely not seeing any prices on photographer websites. We don't operate that way. I don't like not knowing a cost, and I'm sure you don't either. That's why we have everything out in the open.

The next page shows two sets of prices. One is to have Lori Loree personally photograph your wedding and the second is to have one of our amazing staff photographers photograph. Our staff have been photographing for us for years and are incredible. Lori still does all the editing on all the photos from our staff, so they look identical to hers.

We are also happy to make alterations to the packages, so if you need an amount of hours you don't see, let us know and we can make it happen.
